OFFICE OF LEGISLATIVE COUNSEL

Tuesday - 10 December 1963

1. [REDACTED] Attempted to reach Mr. Russ Rourke, in the office of Representative John B. Fillion, regarding his request on behalf of the Congressman for information on Soviet sabotage and assassination schools. (See Journal of 6 December.) I was advised that Mr. Rourke is on leave for the balance of this week. We will put over any further action on this item, which is essentially negative, in character, until Rourke's return next week unless there is further inquiry from Mr. Fillion.

2. [REDACTED] Received another call from George Murphy, Joint Committee on Atomic Energy staff, regarding our reply to their request for information on the [REDACTED] Murphy indicated that this was their last follow up call on this request, giving the impression that if they did not receive a satisfactory response, a follow up letter would be dispatched. I told Murphy we were looking into this matter very closely, that there were a wealth of documents involved, that Mr. McCone was personally aware of their request and had given instructions to look at this matter very carefully. I told Murphy that a response had been drafted and that while I could make no assurances, I was hopeful they would receive a letter by the end of this week. I alerted Mr. Elder to the above in the event the Joint Committee staff should direct further inquiry to the Director's office.
